TESTIMONIAL

I would like to thank all the organizers for the programme **ILBS-ECHO PROJECT**. This is more informative to all the medical professionals without any restrictions. It is a platform to interact with the specialist in national level, and give new idea and recent advances in healthcare system. The presenters are always amazing in query clarification and interaction with us and made this programme more enthusiastic. In our college the administrators encouraging the faculties to participate this programme regularly. Once again I thank to organizers of ILBS- ECHO PROJECT and AVMC&H for this wonderful opportunity.
