

## **TESTIMONIAL**

It has been a very enriching and educational experience to be a part of ILBS ECHO initiative. The topics are very up to date and clinically relevant. The effort put in organizing such an outreach program is immense. I would like to thank the ILBS ECHO team for their commendable effort and also would like to thank the speakers for their effort and patience in answering our queries. The case discussion part adds immensely to our knowledge about the varied presentation of liver diseases.
